

## COVID-19 Testing Kits Available

The FAFP has learned that the Florida Department of Health (FDOH) State stockpile has excess inventory of BinaxNOW COVID-19 Ag Card testing kits available to physicians at no cost. FAFP members interested in ordering the kits should contact their local county health department or Health Coalition representative ([CLICK HERE](#) for contact information) and inquire as to how your practice might be able to acquire the kits. Please note, the expiration date for the kits may be already passed, but the manufacturer has provided a [Product Expiry Update](#) that explains an extension. The FAFP is forwarding this information as a courtesy to its members and accepts no responsibility in terms of availability, efficacy, or any associated liability.
